Carrer Objectives:

As an experienced front-end developer, I possess a strong passion for creating immersive user experiences. With proficiency in HTML, CSS, jQuery, JavaScript, Bootstrap, and various modern libraries and frameworks, I bring a comprehensive skill set to the table. My primary goal as a front-end developer is to design visually stunning and engaging websites that prioritize responsive design, accessibility, and optimization. I am dedicated to exceeding client expectations and meeting user needs. Ultimately, my goal is to build a successful career in front-end development by delivering innovative and impactful web experiences that leave a lasting impression on users.

Professional experience:

Front-End Developer, Fiverr - Remote

May 6 2021 - PRESENT

Fiverr is a global online marketplace for freelance services. Fiverr's platform connects freelancers to people or businesses looking to hire. My core activities include:

- Develop responsive, user-friendly, and visually appealing websites using HTML, CSS, JavaScript, and jQuery.
- Successfully completed multiple website projects for clients in various industries, including e-commerce, healthcare, and hospitality.
- Ensuring a client's website is optimized for performance, speed, and search engine visibility.
- Developed custom WordPress themes and plugins to enhance website functionality and improve user experiences.
- Work with clients to understand project requirements and deliverables.
- Collaborate with cross-functional teams, including designers and developers, to ensure projects are completed on time and to client specifications.
- Provide ongoing website maintenance and support, including updates, backups, and troubleshooting.
